Maritime Studies

Program Contact: J.R. Bratten (jbratten@uwf.edu) (Dept. of Anthropology (http://uwf.edu/anthropology))

The Maritime Studies Program is designed to familiarize students with the dynamic cultural and natural resources of the maritime environment. Students gain the necessary knowledge and expertise to enable them to participate and contribute to our growing understanding and management of the maritime environment.

Maritime Studies prepares students for careers in the diverse and exciting maritime world. This degree provides a broad understanding of the diversified field by integrating maritime themes, transferable skills, and a knowledge base to enter a variety of maritime-related careers. The maritime industry is a major global employer with thousands of opportunities in many areas. The marine environment covers 71% of the earth and continued technology advancement has increased pressure on its resources. Understanding and managing marine resources is becoming increasingly important, requiring a wide range of theoretical knowledge and practical skills that this Maritime Studies degree will provide.

The hallmark of the Maritime Studies Program is its flexibility because it allows students to tailor their degree program to their individual interests. It requires only a few specific core courses to provide an overview of the main areas in Maritime Studies. Students complete their degree programs with elective courses from a wide range of disciplines such as Anthropology/Archaeology, Marine Biology, Environmental Studies, History, Art History, Literature, Law, Political Science, and Leisure Studies.

Academic study is only part of the essential training needed for students of Maritime Studies. They also must have a structured field experience in which methods of sampling, recording, and other practical aspects of professional work in the field environment are learned.

Program Requirements

In addition to general University requirements, students seeking the B.A. degree in Maritime Studies must meet the requirements listed below.

A grade of “C” or better is required in all core courses and courses in the minor.

Students must have a structured field experience in which methods of sampling, recording, and other practical aspects of professional work in the field environment are learned. Field experiences in shipwreck archaeology and overseas history are available. Other structured field experiences can be designed.

In order to enhance the employability and/or acceptance into a graduate program of Maritime Studies, students must also complete a minor in their primary interest field. The fields of choice for minors are:

- International Studies
- Political Science
- Pre-Law
- Public Administration
- Spanish
- Earning the certificate in GIS

General Education

In addition to the General Education requirements listed on this page, students must satisfy all additional University requirements, including the Gordon Rule, multicultural, and foreign language requirements. With appropriate planning and coordination with an academic advisor, students may satisfy some of the general University requirements through the General Education curriculum. For a complete listing of general degree requirements, refer to the “University Requirements” (http://catalog.uwf.edu/undergraduate/universityrequirements) section of this catalog.

General Education Electives
Choose an additional course from two of the three areas of Humanities, Social Sciences and Natural Sciences.

Maritime Studies majors should take BSC 2311 Introduction to Oceanography and Marine Biology/Introduction to Oceanography and Marine Biology Laboratory for the Natural Sciences lecture and lab requirement. Students should also take EUH 1000 Western Perspectives I or EUH 1001 Western Perspectives II to meet the Social Science Breadth or Social Science Elective.

Multicultural Requirement
Multicultural Courses
An important component of a liberal education is the study of cultures other than one’s own. As such, multiculturalism encompasses the appreciation of the values, expressions, and modes of organization of diverse cultural communities. To further such study, the University of West Florida requires all students pursuing a bachelor’s degree to complete at least one course that explores one or more of the dimensions of another culture (language, religion, socio-economic structures, etc.). Students are exempt from this requirement if they...
have completed an A.A. degree, the general education program at a Florida public institution, or a baccalaureate degree. 

The requirement is satisfied by the successful completion of a multicultural course designated on the following list. Several of the selections are General Education courses, and students may enroll in these to meet both the General Education and the multicultural requirements.
