

# Social Work

The BSW in Social Work, accredited by the Council on Social Work Education, prepares students to enter beginning professional social work practice.

## Program Requirements

In addition to the University's general requirements, students seeking the BSW in Social Work must meet the requirements listed below. Consult with your academic advisor for courses which may satisfy both the General Education requirements and common prerequisites.

The program requires 45 sh in social work courses and 3 sh of prescribed major-related courses and includes two field experiences. A practicum is part of the Introduction to Generalist Practice course, taken in the student's second term. This course introduces the student to agency practice. A field placement is part of the senior Field Instruction course. Please contact the department for information on prerequisites and additional requirements.

All Social Work courses must be completed with at least a "C" to be counted toward completion of the degree requirements. No prior work or volunteer experience can be accepted for academic credit.

Because this is a professional preparation program, the department has an application for the Field Instruction courses SOW 4510 Social Work Field Instruction and SOW 4522 Senior Seminar. After declaring the Social Work major with the University, students must complete the following courses with a grade of "C" or better in both academic and practice components and complete and submit the Field Instruction application packet.

SOW 3103	Human Behavior in Social Environment	3
SOW 3113	Human Behavior in Organizations and Communities	3

Social work majors who have been inactive for three years prior to field placement will be subject to faculty review and may be subject to repeating their practice courses. Students must complete courses required for graduation within five years of entry in the major (usually the junior year) with no less than nine credits completed in any one year.

In addition to the General Education requirements listed on this page, students must satisfy all additional University requirements, including the Gordon Rule, multicultural, and foreign language requirements. With appropriate planning and coordination with an academic advisor, students may satisfy some of the general University requirements

## Multicultural Requirement

### Multicultural Courses

An important component of a liberal education is the study of cultures other than one's own. As such, multiculturalism encompasses the appreciation of the values, expressions, and modes of organization of diverse cultural communities. To further such study, the University of West Florida requires all students pursuing a bachelor's degree to complete at least one course that explores one or more of the dimensions of another culture (language, religion, socio-economic structures, etc.). Students are exempt from this requirement if they have completed an A.A. degree, the general education program at a Florida public institution, or a baccalaureate degree.

The requirement is satisfied by the successful completion of a multicultural course designated on the following list. Several of the selections are General Education courses, and students may enroll in these to meet both the General Education and the multicultural requirements.
