

ECP: Economic Problems and Policy Courses

Courses

ECP 3054 Public Economic Policy

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: [ECO 2013](#) OR [ECO 3003](#)

This course focuses on the role of the government in the economy. The aim is to provide an understanding of the reasons for government intervention in the economy, analyzing the benefits of possible government policies, and the response of economic agents to the government's actions. The course covers tax policy and inequality, social insurance programs, public goods, environmental protection, and the interaction between different levels of government. Special emphasis is on current policy issues such as inequality and poverty, health care reform, income tax reform, and budget deficits.

ECP 3301 Principles of Environmental Economics

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

A first course in economics that provides students with the fundamentals of microeconomics and macroeconomics with a structured focus on environmental and natural resource issues. The principles of economics are developed using examples and cases that are directed at environmental policy issues and natural resource decision making. Available to non-business majors only. Offered Fall Semester only.

ECP 3530 Health Economic Policy

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: [ECO 2023](#)

The purpose of this course is to develop/strengthen the student's ability to use economic concepts and theories to analyze health care issues and to inform decision making and policy development. The provision and production of health care have different characteristics and incentives from other consumer goods. We will cover a number of topics including aspects of the US health care market, health care in other countries, health care reform, health care policies as well as discussing some basic economic evaluation techniques.

ECP 4302 Environmental Economics and Policy

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: ([ECO 2013](#) AND [ECO 2023](#)) OR [ECO 3003](#)

Involves the student in the study of a broad range of environmental problems and the appropriate analysis of policy responses. Specific environmental issues include declining urban air quality, global warming, the effect of development on water systems and contamination from waste disposal systems. Traditional environmental regulations and policies are analyzed and contrasted with current, cutting-edge policies aimed at improving the environment.

ECP 4314 Natural Resources Economics

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: [ECO 2023](#)

The impact of human activity on the natural world raises a myriad of issues for society. Efficient management of our natural resources requires understanding of both economic and physical factors. Decisions on resource use affect everyone, with impacts that may come immediately or in the future. This course uses economic tools to analyze those decisions and the resulting impacts. Methods developed in the first part of the course are used to examine applied problems in selected areas such as mineral extraction, energy, forestry, fisheries, water, agriculture, outdoor recreation, wildlife management, and biodiversity.

ECP 4413 Industrial Economics

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: [ECO 2023](#)

Covers economic aspects of the behavior of firms in the United States including degree of concentration, price discrimination, competitive practices, strategic behavior, and regulated industries. The material covered will help students to understand how firms can continue to maintain high profits, how competition might lead to concentration, and how the government serves as a regulator in the economy. Credit may not be received in both [ECP 4413](#) and ECP 4403.

ECP 4613 Urban and Regional Economic Development

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: ([ECO 2013](#) AND [ECO 2023](#)) OR [ECO 3003](#)

Contemporary urban and regional issues such as crowding, congestion, pollution and crime have long been the subject of political, moral and social debate. In order to understand and work towards solutions to these problems a command of economic theory and its relevant applications is essential. Takes simple economic principles and applies them to these pressing social issues including those found in the Gulf Coast area of Northwest Florida. In each case, various alternative solutions are discussed in the context of scarcity of resources, a fundamental principle of economics.

ECP 4905 Directed Study

College of Business, Department of Department of Commerce

1-12 sh (may be repeated indefinitely for credit)

ECP 5905 Directed Study

College of Business, Department of Department of Commerce

1-12 sh (may be repeated indefinitely for credit)

ECP 6045 General Aviation Economics and Finance

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: [QMB 6305](#)

Course will develop students' ability to use economic concepts and theories to analyze issues in general aviation. This includes the interaction of financial markets and general aviation facilities along with the role of aviation policies in the structure of the US general aviation market.

ECP 6046 Commercial Aviation Economics and Finance

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)

Prerequisite: [QMB 6305](#)

Course will develop students' ability to use economic concepts and theories to analyze economic and financial issues in commercial aviation. Specific emphasis is given to federal aviation policy and the effects on the industry along with analysis of the global commercial aviation market. This course also addresses anti-trust issues in commercial aviation.

ECP 6705 Advanced Managerial Economics

College of Business, Department of Department of Commerce

3 sh (may not be repeated for credit)
