

Health Informatics Graduate Certificate

Health Informatics Graduate Certificate

Department: [Health Sciences and Administration](#)

Method of Instruction: [Online](#)

Semester Hours: **12**

The certificate in Health Informatics strives to develop engaged, healthcare professionals who use evidence-based strategies and applied skills to improve operations, quality of care, affordability and access. Our certificate program provides hands-on instruction for future health informaticists. Certificate holders will be able to translate healthcare data that flows from the clinician-patient interaction at the bedside, into reportable metrics and statistics using industry standard data analysis and programming techniques.

HSA 6197	Health Informatics	3
HSA 5198	Electronic Clinical Record Systems	3
HSA 6752	Quantitative Foundations and Data Analysis for Health Admin	3
HIM 5628	Healthcare Data Analysis Using Python	3
Total Hours		12
