

Reverse Transfer

Addendum - 9/10/2021, 9/15/2021

In 2019, the Florida Legislature amended the Statewide Articulation Agreement ([Section 1007.23, Florida Statutes](#)) in order to facilitate a statewide articulation agreement. This was to establish a transfer process for students transferring from a Florida College System (FCS) institution to a State University System (SUS) institution, to obtain an associate in arts degree. The purpose of the Reverse Transfer legislation is to assist former FCS students who have transferred to an SUS institution to complete an associate in arts (AA) degree at an FCS institution. The Legislation applies to SUS students who have completed more than 30 credits at an FCS institution, but who transferred to an SUS institution before earning an AA degree.

Please visit the [Reverse Transfer Website](#) for further information and student eligibility criteria.
